Dear Helen:

The attachment here addresses various federal competitive grant and other funding sources that we have in my lab. In the need for full transparency, I will again remind that all personnel and other expenditure charges on these accounts need to be agreed to by either Laurence or me.

If any changes are attempted ***without our full agreement in writing***, they will be assessed and as necessary contested and revised. {This also means actions taken in the past or retroactively for the last 12 months that may have been done without our knowledge/agreement.}

Any attempt to place people (wholly or in part) on grant etc. funding (past or future) that are not agreed to by us will be brought immediately to the attention of the various granting agencies, donors etc. and other responsible entities as being improperly charged and not to be honored.

Best,
Norman.
