John

We are aware of Norm's responses and are dealing with them.

We do appreciate your keeping us informed of developments as you see them. I am at a meeting right now, but will try to schedule a meeting for us early in the week. Thanks for keeping us informed.

Jim

Dear Jim (and Ron),

With respect to this email (which apparently was not cc.ed to you) and Norm's previous email to Sherry Gordon (to her with forward to the three of us on 6/29/16), it seems that you have a number of decisions on how you wish to proceed. Please let me know if you would like any discussion or input from me.

Cheers
John

Dear Helen:

The attachment here addresses various federal competitive grant and other funding sources that we have in my lab.

In the need for full transparency, I will again remind that all personnel and other expenditure charges on these accounts need to be agreed to by either Laurence or me.

If any changes are attempted *without our full agreement in writing*, they will be assessed and as necessary contested and revised. (This also means actions taken in the past or retroactively for the last 12 months that may have been done without our knowledge/agreement.)
